To center the 60T pin

LIFTMOULD

Your security is our priority

INFORMATION NOTE

At the request of our customers and in order to allow you to center the molds which must be fitted with PL60T studs, the company LIFTMOULS SAS provides you with a tool which allows you to find the center of gravity of the mold well.

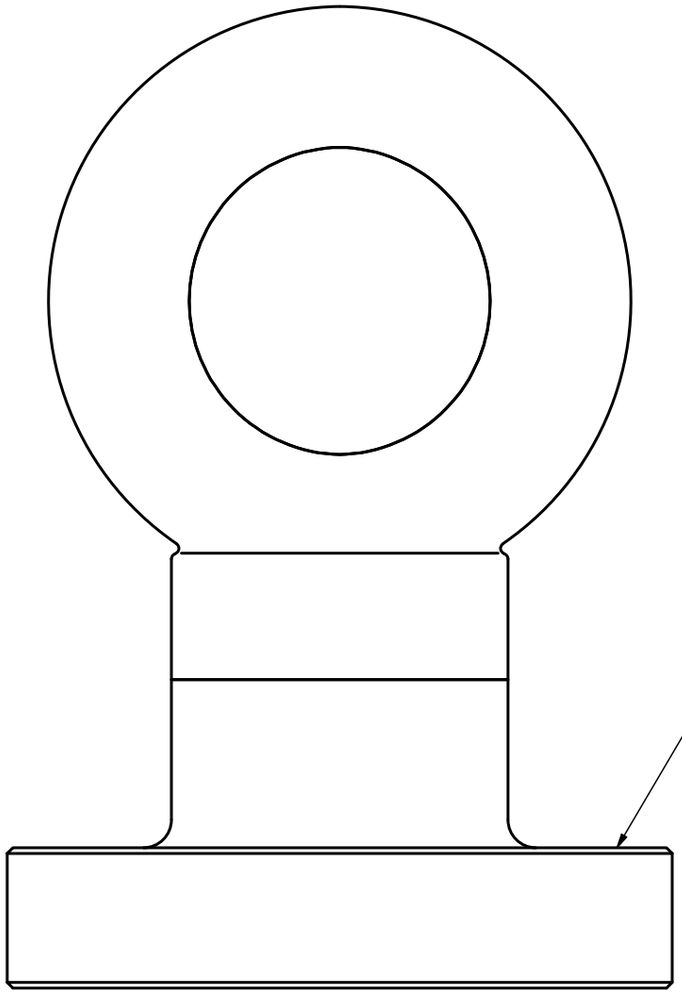

This tool is fixed in place of the PL60T stud, during the final assembly of the mold.

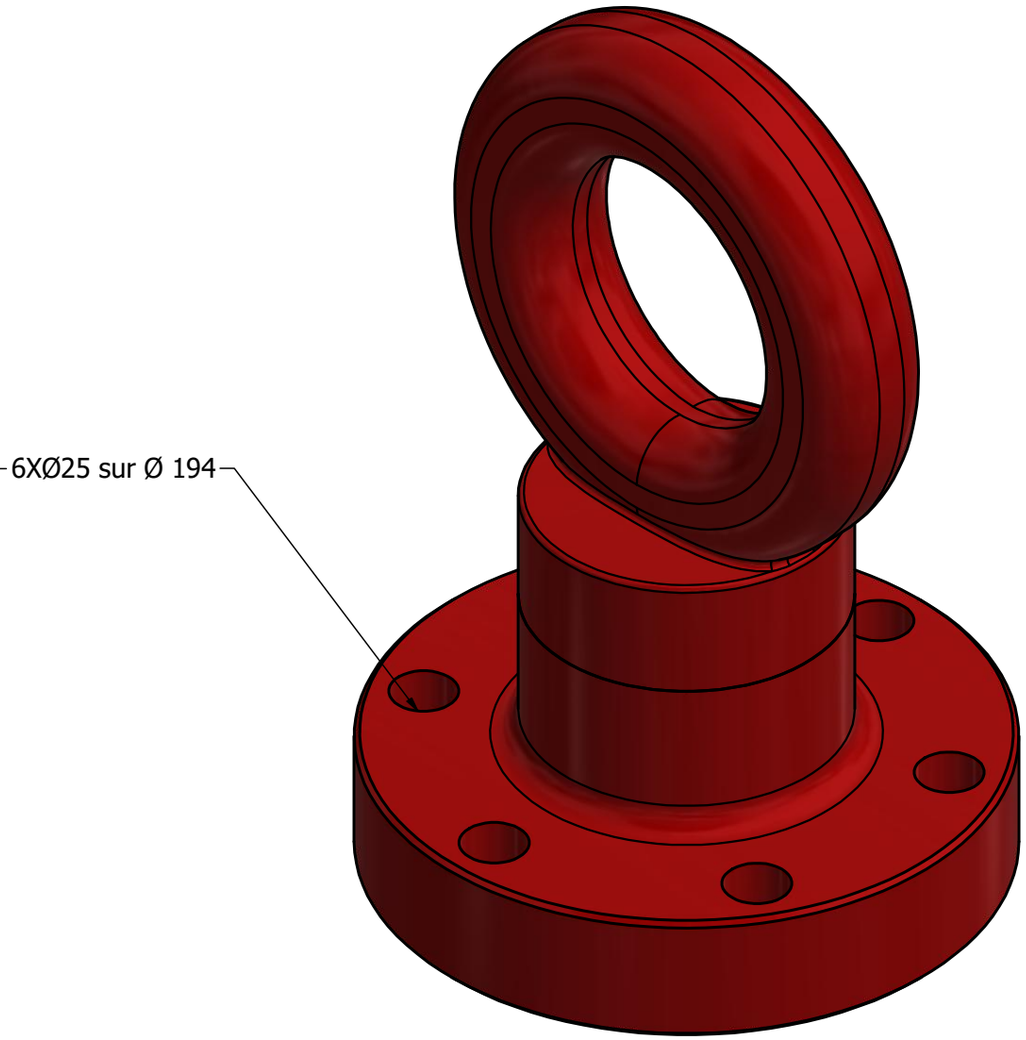

We draw your attention that this product is made to center the mold, but should not be used for handling the mold.

Available from stock
